

Project DIVE presents:

ANTI-ASIAN VIOLENCE TOWN HALL

Monday, April 26, 2021

From 2:15 - 3:15 pm

Combating Anti-Asian Violence

The COVID-19 pandemic has fueled xenophobia and anti-Asian racism and violence. But Asian Americans have experienced racism long before the pandemic. At this event, we will talk about this important history, as well as more recent Asian American Pacific Islander (AAPI) experiences around COVID-19 related racism. We will address race-related stress and healing, share resources to protect our communities, and provide opportunities to build solidarity with the larger LaGuardia community.
